

Create a FREE Website!!

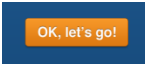

Use Weebly!

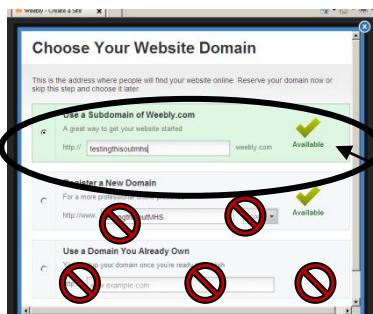

1. Go to <http://www.weebly.com> and fill out the information on the first page to **create an account!**
If working in a group, choose one member's email and a password that everyone in the group can have access to!
2. In the **FULL NAME** blank → List all group member's first **names** as the full name **OR** use ONLY your first name and first initial of your last name to maintain more internet security!
3. **Store your username (email address) and password** in your phone.
4. Complete the next screen and click on: 
5. Enter a **title for your website**. **Tips:**
 - Create an easy-to-remember title
 - Do not use the name of our school in your website title
 - Choose Education → Class Project (or another appropriate option for your categories)
